

Press note

Thru. chooses Eagle Networks for Expansion in Italy

Eagle Networks IT Security Division of Blue Eagle Technology has been chosen by Thru Inc. as a partner for the Italian markets.

In a development effort of its certified partners community, Thru. Inc., the provider of industry's leading solutions for enterprise file sharing and Collaboration, selected Eagle Networks' to offer Thru. Services to its customers throughout the Italian region.

Thru.

Barbara Abeni, CEO Blue Eagle Technology: "Being chosen by Thru, it is a pride for our company, an additional recognition to our professionalism and attention to IT security"

Danilo Carabelli, Security Division Eagle Networks Chief Officer: "Our mission is to provide high reliability and security business services, high standards that Italian companies should expect, always. Allow users to easy collaborate and share files in security, while respecting the need to protect information is a critical factor for any IT manager, especially if we consider the high use of mobile devices, such as tablets, smartphones or Apple. Thru.'s EFSS solutions offer all these features and much more."

Thru is equally excited about this partnership and expansion to the Italian market. This partnership is also geared to help provide insight to Thru about the unique security and compliance needs of the Italian market.

Subhashini Simha, VP Product Management & Marketing stated: "The trends and needs in the file sharing and collaboration market is evolving every day. From a product strategy stand point of view, we believe Eagle Networks will help us understand the unique needs of the Italian customers, so we can tailor our solutions to best serve the Italian enterprises and businesses".

Holger Jachtner, WW Channel Manager at Thru who drove this partnership said "We chose Eagle Networks for their deep focus on the data security and coverage of the Italian market and believe with the help of Thru's solutions, they will help in securing the large data transactions of the financial and large Italian Enterprises.

Thru, Inc., is a leader in file sharing and collaboration in the enterprise market and has been, trusted to help large organizations like EMC, VMware, VISA Europe, Costa to exchange large files and content quickly and securely across the globe. Handling billions of unlimited file size transactions and serving a variety of industries including software, financial services, architecture and manufacturing, Thru has enterprise installations in over 170 countries. Thru's unified platform and products offer both out-of-the-box and custom enterprise solutions helping businesses securely manage content and collaborate effectively. **Thru has been consistently recommended by Gartner and Forrester as one of the leading file sharing & collaboration solution for businesses worldwide.**
